- For St. George's Day

Willingale - We are delighted to report that a group of about 20 ringers, friends and family members made up of ringers from each of the four towers in our benefice – Boddington, Fyfield, Moreton and Willingale here in central Essex - rang at each tower on St. George's Day.

The ringers in the benefice are of mixed ability, therefore, the ringing was a mix of call changes, plain hunt and plain bob doubles. More important to us than the complexity of the ringing was that each tower was rung and everybody had an opportunity to participate. The evening reinforced the cooperation and support across all four towers. At each tower there was a toast to St. George celebrated with good traditional English refreshment of sloe gin and greengage vodka, just a small nip. After the last tower we adjourned to the Queen's Head to complete the evening's socialising.
